RESPONSE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action dated June 29, 2005, reconsideration of this application is respectfully requested.

In response to the Examiner's requirement for restriction under 35 U.S.C. 121 between the Group I invention, method Claims 1 through 30 drawn to a method for forming a relief pattern, and the Group II invention, apparatus Claims 31 through 63 drawn to an apparatus for forming a relief pattern, Applicants elect with traverse to prosecute the Group II invention, apparatus Claims 31 through 63. These claims are submitted for consideration along with method Claims 1 through 30. In this application, the apparatus as claimed can not be used to practice another and materially different process. Nor can the process as claimed be practiced by another materially different apparatus or by hand. Also, Section 806.05(e) of the M.P.E.P. states that if the apparatus claims include a claim to "means" for practicing the recited process steps (see Claims 1 and 31), then the apparatus claim is a linking claim and must be examined with the process claim. Thus, Applicants respectfully request that the requirement for restriction be withdrawn and that process Claims 1 through 30 be considered along with apparatus Claims 31 through 63.
